

## **Claims-mark up**

I claim:

- 1) (Original) A device to dispense from a supply of sanitary covering material and for positioning said sanitary covering material on any floor to provide a sanitary area for a user to stand when footwear has been removed comprising:
  - (a) A frame having a first, second, third, and fourth side, for placement on a floor to define said sanitary area and guide said sanitary covering material through said frame;
  - (b) A dispensing device to supply said sanitary covering material with said dispensing device disposed above said frame, attached to said first side of said frame, and outside of said sanitary area;
- 2) (Original) The device of claim 1 further comprising a collection device to collect said sanitary covering material with said collection device disposed above said frame, attached to said third side of said frame and outside said sanitary area.
- 3) (Cancelled) ~~The device of claim 1 wherein said third side of said frame includes a cutting means to sever used segments of said sanitary covering material.~~
- 4) (Cancelled) ~~The device of claim 1 wherein the sanitary material is perforated to facilitate removal of used portions of said sanitary covering material.~~
- 5) (Cancelled) ~~The device of claim 1 wherein the dispensing device comprises a stacking area for perforated sheets of said sanitary covering material.~~
- 6) (Original) The device of claim 2 wherein the collection device is a hand operated roller with a means for attaching the end of said sanitary covering material.
- 7) (Original) The device of claim 6 wherein the collection device is an electrically operated roller.
- 8) (Original) The device of claim 7 further comprising; a sensor that activates the electrically powered roller to remove the used portion of the sanitary covering material whenever the user vacates the sanitary area.
